Fire Department Open House - October 8th, 2023

Please join our Dayton Fire Fighters at the Annual Open House on **Sunday, October 8th from 11:00 a.m. - 2:00 p.m. at Station 2/City Hall** which is located at **12260 South Diamond Lake Rd.** Parking will be on the gravel driveway to Central Park.

The Dayton Fire Department Open House celebration provides fun and education for the whole family. This event includes a food truck, bounce house, hands-on and interactive demonstrations, fire trucks, tow truck, ambulance and police vehicles tours, games, AirCare helicopter landing and live fire demonstrations!

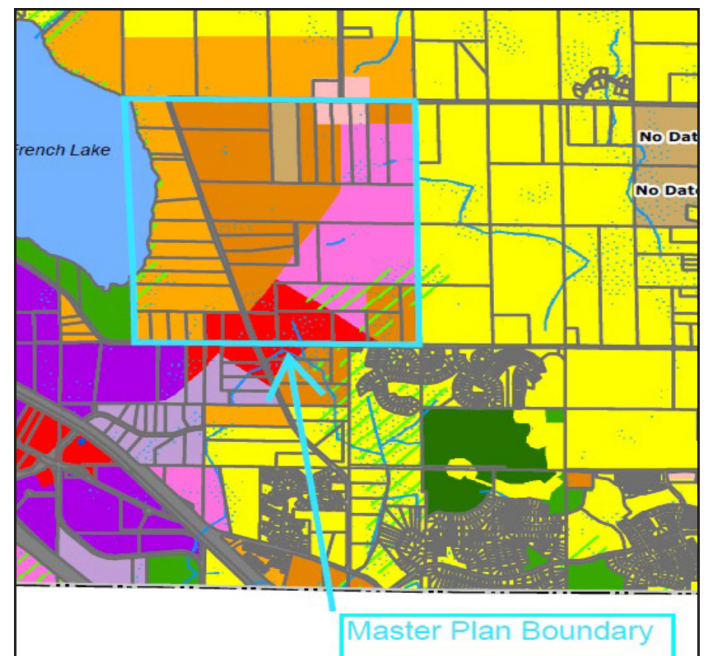

Clear Storm Drains

Storm drains fulfill a great purpose, but can harm water quality when they are contaminated with leaves and debris. Too many leaves or debris around/entering the storm drain causes excess nutrients, sediments, pollutants to enter the river. You can help alleviate this problem by sweeping leaves & debris away from storm drains, inspect storm drains periodically and notify the City if you see an obstruction causing the area to flood.

Master Planning Efforts

The Dayton City Council has initiated a new master planning effort for the area surrounding the planned Dayton Parkway extension to Zanzibar Lane (from 117th Avenue to 125th Avenue). The master planning effort include a visioning session with the Planning Commission, discussions about land use, design standards, climate change strategies and infrastructure with landowners and developers.

A public open house to receive feedback is tentatively scheduled to be hosted in November with a community workshop meeting planned for January 2024. More information regarding these meetings will be posted on the City's website. Questions about the Dayton Parkway master planning process should be directed to consulting planner Kevin Shay at (612) 638-0228.

CITY HALL

Spotlight

Meet two very important City Hall staff members at the City of Dayton. Bethany is the City Utility Billing Clerk & Carissa is the City Accounting Technician. The City of Dayton would like to thank both of them for their hard work and dedication to the City! Below you can find out more information about their roles and some fun facts!

BETHANY & CARISSA

The Dayton Police Department & Fire Department would like to thank all of those who attended and participated in the National Night Out events in August. We had successful events with the largest number of parties ever! Thank you especially to those that hosted and organized the neighborhood parties. We enjoyed being able to meet and talk with many residents. It was a great night and we are already looking forward to next year!

Meet Bethany!

What is your title and how long have you been employed with the City of Dayton?

I am the Utility Billing Clerk. My first day with the City of Dayton was April 13, 2023.

What is the most rewarding part of your job?

Knowing I work with hard working dedicated co-workers in serving the residents of Dayton.

What are your hobbies outside of work?

You can catch me hanging with my mom, dad, sister, nephew and niece on a boat on our favorite lake, or riding 3 wheelers in the trails. My friends are very important to me as well; which I enjoy outdoor activities

What is a good quote to live by?

Take vacations, go as many places as you can. You can always make money, you can't always make memories.

Tell us 3 fun facts!

1. I love my family, especially my sister!
2. I eat candy for breakfast, lunch, supper and in between.
3. I have my motorcycles endorsement.

Meet Carissa!

What is your title and how long have you been employed with the City of Dayton?

I am the Accounting Technician. I started at the City of Dayton in May 2023.

What is the most rewarding part of your job?

Being a part of a growing community and my really welcoming co-workers.

What are your hobbies outside of work?

I love to travel, gardening, exercise and spending time with family.

What is a good quote to live by?

Don't sweat the small stuff.

Tell us 3 fun facts!

1. I have 3 goldendoodles
2. Halloween is my favorite day of the year.
3. I was once on a water ski team.

Resident Resources

Solicitors Need a License

The City of Dayton has received multiple calls from residents with concerns about solicitors, wanting to know if they are required to have a license. The answer is **YES**. If someone comes to your door soliciting, please ask them to see their solicitors license. This will be a half sheet of laminated paper that has the dates they are able to go door to door along with a picture. Licenses are non-transferable and only good for a set duration of time. Licenses are also specific to Dayton so you will also want to make sure it is a Dayton license. Please call the police if you have someone come to your door without a license or one from a different City. Residents also have the ability to put their address on a no solicitation list if you would like to be put on the no solicitation list, please email City Clerk Amy Benting at abenting@cityofdaytonmn.com with your address and no solicitors in the subject line. Staff will be working on expanding information on the City website to share both companies and individuals that have active licenses.

New Resident to Dayton?

If you are a new resident to Dayton, please utilize our **New Resident Information** tab on the City website at www.cityofdaytonmn.com under the **About Us** section. Here you will find information about meetings, utilities, property taxes, recycling and more!

Properly Dispose of Yardwaste

Dayton Residents can utilize the Maple Grove Yardwaste site for yard waste, garden waste, soil & ash trees. For the full list of accepted materials, please visit their website at www.mgyardwaste.com. You must have a valid picture ID with your current address. If you just moved, please bring closing documents or current utility bill. Site is located at 10300 Maple Grove Parkway North, Maple Grove.

Hydrant Flushing

The semi-annual water main flushing program occurs every fall and spring. Hydrant flushing will occur the second week in October. Flushing fire hydrants and water mains is part of routine maintenance necessary to maintain the water system and remove sediment from the lines. The

process of flushing the water system may result in low water pressure, cloudy or discolored water during the days the system is being flushed. The discolored water is not dangerous to your health. Please be aware of the water quality while doing laundry or other tasks that require rust free water.

Please watch for signs placed in your neighborhood when flushing will begin. Please visit our website for resident tips on hydrant flushing under Public Works Department under the Sewer & Water tab. For questions or concerns about hydrant flushing, please do not hesitate to contact Public Works at (763) 427-3224.
