

# ROUNDAABOUT at Brockton Lane and Territorial Road

As part of the I-94 Maple Grove to Clearwater project, MnDOT is building a roundabout at the intersection of Brockton Lane and Territorial Road in Rogers. MnDOT will also convert the four-way stop at Fletcher Lane and Territorial Road in Rogers to a 3-way temporary signal throughout construction on I-94.

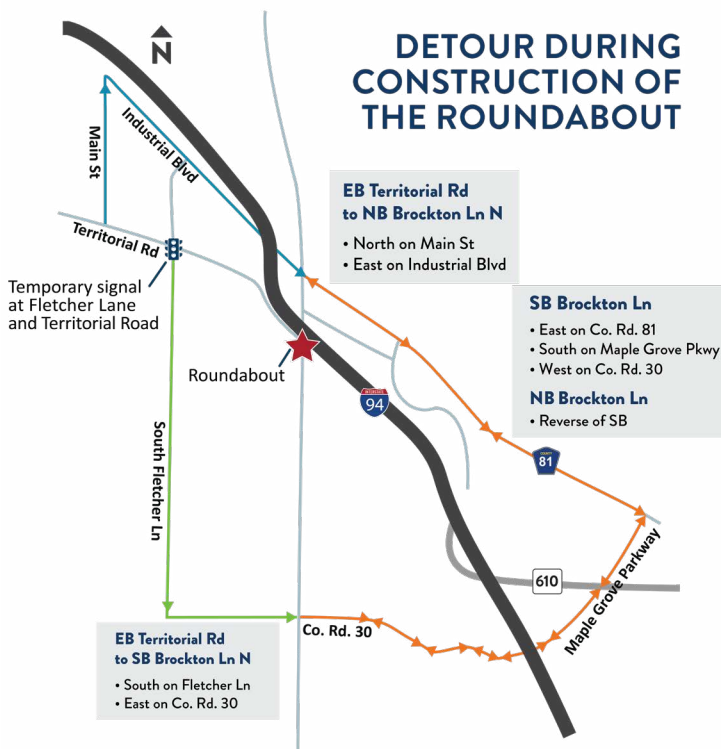

## Why is a roundabout being installed?

MnDOT is installing this roundabout to help mitigate local traffic levels during construction on I-94 to keep traffic flowing. Although local mitigation projects are typically removed after construction, it is less expensive to keep this roundabout in place than to remove it. MnDOT is working with Hennepin County to ensure that the roundabout meets all users' needs.

## When will construction take place?

The Brockton Lane and Territorial Road intersection will be closed from April until May 2020. The intersection closure and detours may add time to your drive. Please plan ahead. The temporary signal at Fletcher Lane and Territorial Road will also be installed in April 2020 and will take a few weeks to complete. Traffic will be maintained for the signal construction.

## How will traffic be detoured while the roundabout is being built?

## Where can I learn more about roundabouts?

For resources on how to navigate roundabouts and why we use them, visit [mndot.gov/roundabouts](http://mndot.gov/roundabouts)

## How can I stay up-to-date on the I-94 Maple Grove to Clearwater Project?
