

SPRING CONSTRUCTION UPDATE 04-16-2021

Construction Information

The contractor plans to be on site completing work beginning with the trail on the west side of Pineview Lane N beginning early in the week of April 26, 2021, weather depending. The contractor will also be finish grading and seeding areas along the length of all project roadways, as well as completing punch list items.

Traffic Information

The contractor's intention is to leave Pineview Lane N, Oakview Lane N, and County Road 121 open to traffic during the remainder of construction work. Lane closures may be necessary. Please take caution while driving in the area and yield to construction traffic.

Safety Information

Please be advised that pedestrian traffic is prohibited and unsafe within construction areas throughout the project during and outside of construction hours. Pedestrians do not have the proper personal protective equipment to be on site. We have observed several children attempting to bike/travel through the construction zone, and the contractor is worried about an injury with moving equipment and other construction site conditions unsafe for unauthorized personnel. Driving through the closed construction site is also prohibited and causes danger to drivers and construction personnel.

Continued Updates

It is the intent of City of Dayton staff to provide regular email updates to notify residents of progress on this project. Please share this email with other residents to let them know how they can stay informed about the project. If you know of anyone that wants to be added to the emailing list, please have them email pineviewproject@cityofdaytonmn.com.

Project Contacts

Please direct questions about the project to the following individuals:

Lauren Pierce
