

## **Maple Grove Water Main Improvements**

September 9, 2022

I have been informed that Maple Grove will be making improvements to their water main that serves as a primary source to supply water to the South of Dayton. The work is scheduled to happen from 10:00 pm on Monday September 12 and should be completed early morning on Tuesday September 13.

While the primary source is out of commission Dayton will be supplied by secondary service from Maple Grove, and from a hook up to the City of Rogers. These sources will be able to supply water service to residents while the Maple Grove water main improvements project is being completed. While Staff do not anticipate any problems with water supply, to ensure sufficient water is available on Tuesday morning Staff are requesting that lawn irrigation systems are not activated until Tuesday afternoon/evening.

The following Areas are supplied by the Maple Grove system

**Sundance Woods**  
**Sundance Greens**  
**Territorial Trail**  
**Territorial Commons**  
**Rush Creek Landing**  
**Brayburn Trails**  
**Wicht Industrial Park**  
**Troy Lane**  
**Brockton Lane**  
**Dayton mobile home park**

Thank you for your understanding and cooperation.

Martin Farrell

Public Works Director

City of Dayton
